The Dingo is a lightweight and functional safety boot crafted with full grain cowhide leather and Cambrelle® lining which offers comfort, durability and moisture management. The nitrile rubber outsole and lightweight phylon midsole provide greater cushioning and shock absorption. The sole incorporates a high toe guard for extra protection. The boot is fitted with an energy absorbing gel insert in the heel area to absorb impact energy caused by heel strike. Non-metallic composite toecap complies with ASTM F2413-11 (M I/75 C/75).

**BOOT SPECS**

Size Range: 5 to 16  
Half Sizes: 8.5 to 11.5  
Height: 6”
