The Tradesman is made of comfortable and durable buffalo leather, perfect for rugged environments. With a 6" height, this boot provides additional ankle stability while the Cambrelle® lining offers superior comfort and moisture management. Constructed with a polyurethane (PU) midsole that provides shock attenuation which helps to reduce foot fatigue. The thermoplastic polyurethane (TPU) outsole creates an improved durability and resistance to break down compared to conventional dual density PU soles. Steel toecap complies with ASTM F2413-11 (M I/75 C/75).

**BOOT SPECS**
- **Size Range:** 5 to 17
- **Half Sizes:** 6.5 to 12.5
- **Height:** 6"
- **Weight:** 1.43lb
- **Color:** Black

**FUNCTIONAL FEATURES**
- Anti-static
- PU midsole
- ForefootFlex
- HeelBevel
- EVA innersole
- Rake10mm
- Knitted polyester lining
- TPU outsole heat resistant to 302°F
- Meets USA Safety Standards ASTM F2413-11 (M I/75 C/75)
